Two-line: 5 & 10 buttons, speakerphone
One- and two-line remote: Each base unit is equipped with a cordless handset, and operates up to four additional remote handset charging stations.

ANALOG CORDED TELEPHONES

Cetis analog corded telephones are designed and engineered in America and Europe to meet the requirements of a variety of retail, home office, small office, and Enterprise level desktop business communications applications.

E Series

E Series line-powered, analog corded telephones are amazingly small in size. Originally designed and engineered in America for cruise ship applications, E Series phones meet the highest standards of quality, durability, and innovation. And since their smaller footprint requires less plastic, we use less energy in the manufacturing process.
Colors: Ash or Black.

- One-line:* 4 & 8 buttons, speakerphone
- Two-line:* 4 & 8 buttons, speakerphone
- Trimline:* Available in single and two-line configurations

I Series A
